

White trail travels across the atmosphere.

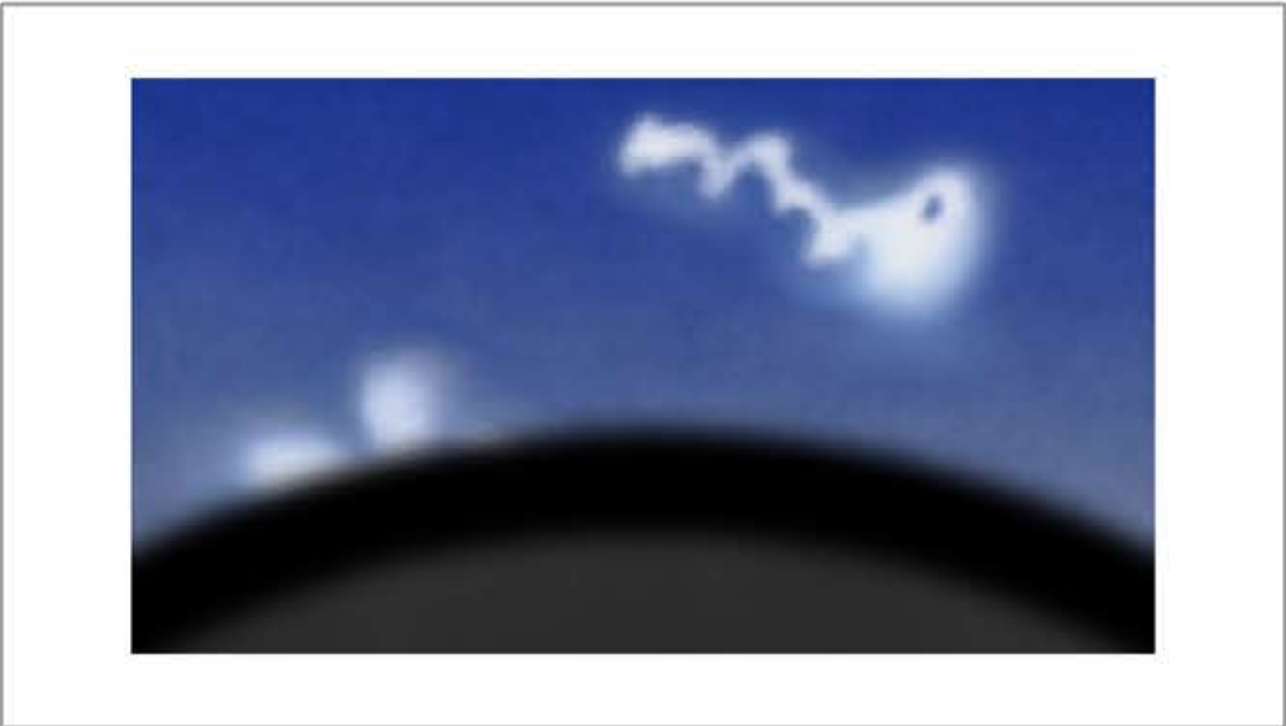

The monocular goes downwards, displaying the canvas. The canvas reveals the distant white trail painted on layers of sky blue. The focus is generally tranquil.

First\_Photo\_of\_Earth\_from\_V-2\_Rocket footage

TERRAPainter: (Over the Radio) Did you get the shot?

COSMOPHOTOGRAPHER: The first that's...

...out of this world.

The cloud illustrates the name of the rocket: "V2".

The stork enters from the bottom-left. The focus follows the stork.

She will land soon.
