

SYNOPSIS

Fuse is about finding your charge. The matter surrounds a physicist tackling her education and fighting for the prospects that follow. Though her mind values the magnetic paces ahead, dreams do not electrify. So, she may need to reconnect working circuits and disconnect from those that crossed the field lines.

Quark enters Columbia University as a physics student, dreaming of working at an accelerator. Professor Bos connects her to magnetism. However, their opposite charges never attract but an instance of perhaps, identical. Лептоны takes charge of Quark's livelihood each time Quark gets cut down by Bos; he has the power to fail anyone and even defund institutions. In the conclusion of this musical thesis, Quark acquires the circuits to bring unharnessed energy to Brookhaven National Laboratory.
