NOTES ON ATTIRE & COSMETICS

Performer portraying Quark: In the emergence era of co-op research, she would fit in with generally a blouse, a belted skirt, and close-toed heels. She eventually lugs around her sentimental red helmet, attached to a lanyard around her neck.

Performer portraying Лептоны: She soils her science gear when she is working, but when she is not, she wears much more dull clothes. She dresses up as a rancher near the Desertron. She wears her blue helmet at Brookhaven National Laboratory.

Performer portraying Bos: He fits in anywhere. He is suited to take on a tenure. He is beyond well-dressed for Brookhaven National Laboratory to demonstrate his reign. In that case, he hardly sleeps.

Performer portraying Atom: He dubs the Columbia University apparel.

Performers portraying engineers: The blue clothes and safety gear are for nanoscience.
